

# SOCIAL DISTANCING VINYL FLOOR DECALS

**LOW MINIMUM QUANTITY - PRINTED IN 5-7 WORKING DAYS!**

The latest trend for businesses that want to keep customers a safe distance away from each other.

It is recommended to place them 6 feet apart in checkout lines or any place requiring customers to wait in line. COVID-19 floor decals are available in 12" circle or 12" square shapes. Choose from one of our 4 designs or create your own design.

Social distancing vinyl floor decals are printed on 4 mil flexible vinyl and a 6mil clear overlamine with a slight texture is added to provide both a protective overlay and slip-resistance. COVID-19 removable floor decals will adhere well to most interior surfaces. The floor should be thoroughly cleaned and dried prior to application. Not recommended for concrete, asphalt, carpet, or any exterior application.
